CHIEVEGETARIBE EVER D'MORSE'S INVICORATING CORDIAL

FOR GENITAL DEBILITY, IMPOTENCY, INCONTI NERCE, OR NOCTURNAL EMISSIONS, &c.—The as-tonishing success which has attended this invaluable medi-cine, for Loss of Muscular Energy, Physical Lassitude, and General Prostration, or any of the consequences of youthful indiscretion, or indulgence of the passion in riper years, ren-ders it the most valuable preparation ever discovered. In fact, as a remedy for the above complaints, it stands un-rivalled and alone. There is no other reliable remedy, or rivalied and alone. There is no other reliable remedy, or any that has authentically received the sanction of the Modical Faculty. The WONDERFUL VEGETABLE PRIVDUCTION of which this medicine is composed has been tested, and its virtues proclaimed, by the highest names of the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS, HEAD, and MIND COMPLAINTS—the mental physic so long sought for and never before found—the only agent that can administer to MIND DISEASES. If will remove all nervous affections, DEPRESSION, EXCITEMENT, incapacity to study or business, loss of MEMORY, CONFUSION, thoughts of self-destruction, fear of insanity, &c. It will restore the appearing, the remew the health of those who have destroyed it by Sensual Excesses or evil practices. It has been said by some that these disorders, emissions, &c., were incurable. This, however, is not the fact.

DR. MORSE'S INVIGORATING CORDIAL has cured, and is constantly curing, these complaints—relieving the

mental and bodily incapacity of the unfortunate sufferer, as the following testimony of the names received will conclusively show:

Dr. Woodward, of ——, Maszachusetts Insane Hospital, writes of one of his patients being cured by using this Cordial thus: "It gives me pleasure to inform you that one of my patients, while in Boston, precured some of your Cordial. He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week. When he applied to me," says Dr. Wt., "I thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the mean time he purchased some of your Cordial, which has effected a care I am sure no other medicine would. I shill ever recommend it, whenever an opportunity occurs."

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of cures out of the question. The proprietor could produce a host of the most cordinaive testimony to show that the great reputation it enjoys was not accidentally obtained, but is firmly based upon its positive and apparently mirculous virtues. In all directions are to be found the happy parents of healthy offsprings, who would not have been so but for this extraordinary preparation. And it is equally potent for many diseases for which it is recommended.

THE MEDICAL JOURNALS have not, in a single instance that has been authenticated, given their sanction to any other preparation for the above

and their condition pronounced hopeless by medical practitioners of high professional character.

THE COMMON EXPRESSION
of those who have used this Extract is: "I had heard your
Cordial highly spoken of, but was one of the incredulous in
regard to its merits, having tried various medicines sold for
the same purpose, (different Sarsaparillas,) without deriving
any benefit. I had almost given up all hope of obtaining
relief, whea I purchased some of your Cordial. I had no
faith whatever of its benefiting me—but it has. I feel
stronger, have had no emissions since, although it is not
three weeks. I am satisfied that the half a dozen bottles I
took will cure me."

took will cure me."

Another says: "I had consulted several distinguished physicians. Some said I could not be cured; others prescribed this thing and that; but I found no relief until I procured some of your Cordial. I must say it completely

Another says: "I was surprised at the effect your Cordial had. Why had I not heard of it before! It would have saved me so much expense, besides years of mental and bodily suffering."

CAUTION.—Ask for Dr. Morse's Cordial, and take no other, as there are worthless imitations which its unrivalled excellence, fame, and popularity have brought into the market. It will not hurt the most delicate female, but do good. Beware of all other Cordials, &c., and try only this. It is put up in pint bottles, with the words Dr. MORSE'S INVIGORATING CORDIAL blown on the glass. Price \$2 per bottle; two bottles, \$5; six bottles, \$12; and \$24 per dosen.

that has ever yet been presented to the world. By his plan, founded on observation made in the Hospitals of Europe and America, he will insure

impossible.

A CURE WARRANTED, OR NO CHARGE.

Young Men especially, who have become the victims of Solitary Fice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence.

MARNIAGE.

Married persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.

Office, No. 7 South Frederick street, Baltimore, Maryland, on the left hand side, going from Baltimore street, seven doors from the corner. Be particular in observing the name and number, or you will mistake the place.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the cars and head when asleep, great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

TAKE PARTICULAR NOTICE.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by private and improper indulgences, that secret and solitary habit, which ruin both body and mind, unfitting them for either business or society.

These are some of the sad and melancholy effects produced by early habits of youth, via: Weakness of the Back and limbs, Pains in the Head, Dinness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c., &c.

Mentally.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Love of Solitude, Timidity, &c., are some of the evils produced.

NERVOUS DEBILITY.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption; also those scrious Mental effects, such as loss of Memory, Depression of Spirits, or peculiar fits of Melancholy, when the truth is, they have been caused by indulging in Pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their Country, a pleasure to their friends, and ornaments to Society.

their Country, a pleasure to their friends, and ornaments to Society.

DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS.

This grand and important Remedy has restored strength and vigor to thousands of the most debilitated individuals, many who had lost all hopes, and been abandoned to die. By its complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an emaciated and premature decline, to sound and pristine health. Oh, how happy have hundreds of misguided youths been made, who have been suddenly restored to health from the devastations of those terrific maladies which result from indiscretion! Such persons, before contemplating

MARILAGE,
should reflect that a sound mind and bedy are the most ne-

tion! Such persons, before contemplating
MARRIAGE,
should reflect that a sound mind and bedy are the most necessary requisites to promote connubial happiness. Indeed,
without this, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind
becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with our own. Let no false delicacy prevent you, but
apply immediately.

He who places himself under the care of Dr. Johnston
may religiously confide in his honor as a Gentleman, and
comidently rely upon his skill as a Physician.

TO STRANGERS.

The many thousands cured at this institution within the
last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the
papers and many other persons, notices of which have appeared again and again before the public, is a sufficient
guaranty that the afflicted will find a skilful and honorable
physician.

TAKE NOTICE

physician.

TAKE NOTICE.

It is with the greatest rejuctance that Dr. Johnston permits his eard to appear before the public, deeming it unprofessional for a physician to advertise; but unless he did so, the afflicted, especially strangers, could not fail to fall into the hands of these imprudent, beasting impostors—individuals destitute of knowledge, name, and character—pedlars, shoemakers, mechanics, &c. advertising themselves as physhoemakers, mechanics, &c., advertising themselves as physicians; ignorant quacks, who keep you trifling month after month, as long as possible, and in despair leave you with ruined health to sigh over your galling disappointment. It is this motive alone that induces Dr. J. to advertice, for he alone can care you. To those unacquainted with his reputation he deems it necessary to say, that his credentials or diplomas always hang in his Office.

Weakness of the Organs immediately cured, and full vicor restored.

AMERICAN TELEGRAPH.

The Democratic Convention. The report of yesterday morning's proceedings, given in our telegraphic despatches yesterday, were very ample and satisfactory.

Aspinwall, on the isthmus, arrived here to-day, At 5 o'clock in the afternoon the Convention with three hundred passengers, and a small amount of specie not reported. She brings San reassembled.

The Chair appointed the following committee, to which all resolutions relating to the creed or platform of the party are to be referred:

Maine, Daniel W. Bradley; New Hampshire, Charles G. Atherton; Vermont, David A. Smal-ley; Massachusetts, B. F. Hallet; Rhode Island, Philip Allen, jr.; Connecticut, Wm. B. Lawrence; New York, Henry C. Murphy; New Jersey, New York, Henry C. Murphy; New Jersey, Joseph C. Cole; Pennsylvania, A. H. Reeder; Delaware, Wm. S. Osborne; Maryland, Hiram M'Cullough; Virginia, S. F. Leake; North Carolina, D. H. McRae; South Carolina, not represented; Georgia, declined making any appointment; Alabama, P. Phillips; Mississippi, John D. Freeman; Louisiana, Pierre Soulé; Ohio, George W. Manypenny; Kentucky, John W. Stevenson; Tennessee, Aaron V. Brown; Indiana, Robert Dale Owen; Illinois, Joseph B. Hoge; Missouri, W. R. Forney; Arkansas, N. B. Burrows; Michigan, C. E. Stewart; Florida, Jesse rows; Michigan, C. E. Stewart; Florida, Jesse Cole; Texas, Richardson Scurry; Iowa, Philip T. Bradley; Wisconson, ———; California, E.

D. Hammond. Mr. Degroe, of New York, offered a resolution stating that in the opinion of the Convention the public domain belonged to the people of the United States, and that it was the duty of Congress to apportion it among actual settlers. It was referred to the committee on resolutions.

Mr. Nabors, of Mississippi, submitted the fol-

lowing resolution: Resolved. That this Convention will not go into a nomination of candidates for President and Vice President until the platform of the Democratic party is laid down.

Mr. Soulé, of Louisiana, hoped the resolution would not be adopted. The committee on resolutions would report a platform on which they could The President called for the report of the committee on credentials, but it was not presented.

A delegate from Mississippi stated that the resolution proposed by Mr. Nabors had not the sanction of the Mississippi delegation.

Mr. Nabors withdrew his resolution, for the purpose of allowing the delegations time to con-

sult upon it.

Mr. Wise, of Virginia, immediately renewed the resolution, and advocated its adoption.

Gov. Floyd, of Virginia, trusted it might the pleasure of the Convention to repudiate the resolution. He wanted the Convention to nominate a man who would be welcome to the hearts of the people even without a platform. He warned the Convention of the dangers which might result from the making of platforms. He wished the nomination of a man whose whole life would be the guaranty of his faithfulness to the principles of the party. These, he was proud to say, were the sentiments of the great majority of

the Virginia delegation.

Mr. J. L. Robinson, of Indiana, said he was astounded beyond measure that there should be

any objection to the resolution. Mr. Soulé was not opposed to the establishment of a platform; he wanted one so plain in its principles that he who ran might read, and one worthy of the noblest triumphs of Democracy.

The question was called upon the motion to lay the resolution on the table, and a vote by States demanded. The vote given was as follows, by which the motion to lay on the table was adopted: YEAS-Maine, 8; New Hampshire, 5; Ver-

mont, 5; Massachusetts, 13; Rhode Island, 4; Connecticut, 6; New York, 24; New Jersey, 7; Delaware, 3; Maryland, 8; Mississippi, 7; Louisiana, 6; Ohio, 23; Tennessee, 12; Illinois, 11; Arkansas, 4; Michigan, 6; Florida, 3; Iowa, 4; Wisconsin, 5. Total 164.

4: California, 4. Total 114. Georgia declined voting. Mr. E. Buske, chairman of the committee on credentials, submitted the report. It states that all the States were represented in the Convention by delegates duly elected, with the exception of South Carolina, from which there was no representation. There were two entire conflicting delegations from the State of Georgia. One representing the State Rights party, and claiming the right to represent the State in the Convention on the ground that it more fully represented the organization. The other delegation claimed to represent that portion of Democrats of the State belonging to the late Union party, and claiming seats here on the ground that they represented large portion of the Democrats of the State. The committee had decided that the set of delegates represented by Mr. Cohen, (the State Rights delegation) were entitled to seats in the Convention; but, from the fact that the other delegation (represented by Mr. Jackson) represented a very considerable portion of the Democrats of the State, the committee recommended that both delegations be admitted to seats in the Convention, and that they together cast the vote of Georgia.

The committee reported that Gen. Commander was not entitled to a vote in the Convention. In the midst of much confusion, a motion pre vailed to adjourn until to-morrow morning at 9 o'clock.

The Democratic Convention. The Baltimore American of yesterday morning

"It is altogether out of the question to form any definite conclusion as to the individual who is to be the chosen one of the Convention. The uncertain operation of the two-thirds rule baffles all conjecture, and the recollection af Mr. Polk's nomination in 1844 comes up like a warning me mento to dash the hopes of the most confident among the prominent competitors. The interest of the scene is very much heightened by the fact that to several of the most distinguished aspirants the chance now offered for the Presidency is the last and only one. Gen. Cass and Mr. Bu chanan must take their final venture. The pursuit of a lifetime now draws to a crisis for these gentlemen, with the certainty that both cannot be gratified, while both may be doomed to

disappointment. "Messrs. Buchanan, Douglas, and Houston are not without devoted friends. They are men of ability. Recently the name of Mr. Senator Rusk has been used quite freely in connexion with the nomination-the absence of political prejudices and disputes in his case constituting negative recommendation. Not that Mr. Rusk is deficient in positive merits—for he holds a very respectable position in the national councils. Mr Marcy has some strength, but it will be made available most probably for some one else, to whom he will become an auxiliary. He has not capital enough to do business on his own account.

The Whigs of Missouri have nominated James Winston for Governor, and Andrew King for Lieutenant Govenor.

cisco on the 6th of May, with six hundred passengers, and arrived at Panama on the 21st ult. Intelligence from Shasta reports the killing of one hundred and fifty Indians by the whites, who were infuriated at the murder of Mr. Anderson

by the Indians. A memorial signed by many of the most substantial citizens of San Francisco, deprecating hasty legislation in the matter of Chinese emigration, has been presented to the legislature. In the mean time, intelligence from Sacramento announces great excitement in regard to the Chinese amongst gold-diggers along the banks of the American river, and their forcible expulsion from the diggings was taking place daily. One morning 200 were driven off from one locality. There was but one opinion among American miners in regard to the importation of Chinese into the mines. They are fully determined to submit

no longer.

The legislature had closed its session. The population of San Francisco increased early 6,000 during the month of April. Of this

nearly half was from China. United States sloop-of-war Vincennes sailed from San Francisco 3d May for home, via Valparaiso.

The weather had been favorable for mining. The accounts from the diggings generally were

Great Men Dying in Washington. The Petersburg (Va.) Express says: "It is emarkable that so many have died, or expect to die, in Washington city. Adams, Harrison, Taylor, Calhoun, and many others, have given a sacredness and a sanctity to the federal city, the child and the emblem of the Union, by their deaths. It is salutary to visit the special locali-NAYS—New York, 11; Pennsylvania, 27; ties where they breathed their last. There is Virginia, 15; North Carolina, 10; Alabama, 9; competitive heaviful and grand in the speciments. something beautiful and grand in the sentiment, Kentucky, 12; Indiana, 13; Missouri, 9; Texas, growing in the hearts of great statesmen, which leads them to come to Washington to die. It is their last and most solemn expression of devotion to their country's union: 'the Union, it must be preserved.' Dulce moriens reminicitur Argosdying he sweetly remembered Argos,' was said of an ancient Grecian; but with how much emphasis may it be said of many a departed American. The Hindoo, when he feels his end approaching, asks to be carried to the banks of the Democracy of the State than any other existing Ganges, that he may die in the sight of what he believes to be the sacred waters. So let the feeling be encouraged among ourselves that it is good to make the Union of the United States the

subject of our aspirations with our dying breath."

Encroachments of the Sea. A communication in the Charleston Courier tates that the sea for the last ten years has not mly been encroaching on the harbors of South Carolina and Ceorgia, but has threatened to invade the rice domains with its salt inundations. The mouths of the Waccamaw and of the Santee have been alike alarmed with its pickling qualities, and the Cooper has suffered under these unfavorable influences almost to its sources. The right arm of Charleston, yielding some 20,000 tierces of rice for export, is in danger of being lopped off, and one of the most valuable staples, and the most perfect system of cultivation by irigation, may be lost to the State, if speedy and effectual measures are not adopted to drive back the salt water and restore to the interior refreshing currents their seasonable service in the supply of fresh water.

IMMENSE CONTRACT. - A contract for building the Terre Haute and Alton (Illinois) railroad has been entered into by Messrs. Willis Phelps, Wm. Mattoon, and Jas. Barnes, of Springfield, Mass. This road extends 175 miles-entirely across the southern part of Illinois. These gentlemen have contracted to build the road, furnish the iron, build the depots, cars, locomotives, &c., putting the entire road in running order, with three millions of dollars. The route is comparatively an easy one, and it is believed that the road will be completed within two years. These gentlemen are already heavily engaged in different parts of the United States.

Wellington said, "Up, guards, and at them!" This is as clear as the water of the Mississippi luring a freshet; and in Irving's Life of Goldsmith, the Washington Telegraph will find that Dr. Johnson declared that he had contributed nine lines to the poem of the Traveller, two of which nine lines are those above quoted.
